

STATEMENT OF WORK (SOW) & PROJECT DELIVERABLES

Luxury Multi-Site Showcase & Content Management System | Status: Confirmed Scope

1. Project Scope & Architecture

This Statement of Work (SOW) defines the final design, SEO boundaries, deliverables, and dual-site launch criteria for the T24 Watches Dubai e-commerce showcase application. This scope covers both primary organic traffic development and Google Ads marketing targets.

2. Dual-Storefront Strategy (Site 1 & Site 2)

Primary storefront (Site 1): The main organic domain containing the full product catalog, search filters, bilingual translation engine, custom editorial collections, and a journal blog system.

Marketing landing storefront (Site 2): A design-adjusted replica of Site 1 dedicated exclusively to Google Ads paid search campaigns, optimized for conversion speed and Google search compliance policies.

3. Core Deliverables & Business Rules

3.1 Page and Catalogue Structure

- **Homepage Redesign:** Implements the 6-module layout flow below the main banner (New Arrivals, SpecsBar, Lume section, Catalogue, Reviews, Heritage Columns).
- **Navigation Update:** Transitions category labels to 'Mens' and 'Womens'. Removes 'New Arrivals' and 'Craftsmanship' navigation items from the menu bar.
- **Brand Order Display Priority:** All catalog lists display brands strictly in the following sequence: *Richard Mille, Audemars Piguet, Patek Philippe, Rolex, Hublot, Cartier*, followed by 'More Brands'.
- **Product Detail Pages:** Configures consistent solid black/white backgrounds for all watch images, adds the 2-year warranty top notice, and standardizes the 7 specification tables.
- **Bilingual Engine:** Localizes all frontend templates into Arabic and English, featuring automatic RTL direction conversion.

3.2 Infrastructure & Backup

- **WordPress Journal Blog:** Integrates WordPress back-office management with the React blog interface.
- **Speed Optimisation:** Fast server optimization aiming for fast page load targets.
- **Automated Server Backups:** Setup daily backup routines preserving database and asset directories.

3.3 Core SEO Keyword Strategy

The web platforms implement separate keyword optimization structures for Arabic and English search markets.

- **Priority High-Volume Keywords:** *superclone watches, superclone watches in Dubai, superclone watches Dubai, replica watches in Dubai, Dubai replica watches.*
- **Secondary Themes:** *copy watches, premium copy watches, replica watches, clone, master copy.*
- **Competitor Target References:** *Dubaiwatchstore, mastercopywatches.com.*

4. Scope & Responsibilities Checklist

Task Area	Description	Deliverable Site Target	Responsible Party
Redesigned UI	Implement 6-tier homepage layout flow & Brand priority order	Site 1 & Site 2	Frontend Development Team
PPC Replica Site	Create design-adjusted landing clone for Google Ads compliance	Site 2 Only	Marketing / DevOps Team
Warranty specs	Position 2-year warranty at top of PDP specs grid in exact order	Site 1 & Site 2	Content Admin / Sameer
Translation Engine	Support English and Arabic translation (RTL compatibility)	Site 1 & Site 2	Translation / Dev Team
SEO Journal Blog	Deploy blog system mapping dynamic database queries	Site 1 Only	Blog Editor / WordPress
Infrastructure	Configure high-speed server and daily automated system backups	Site 1 & Site 2	Systems Administrator
